Roof Racks

Thule Evo & Thule Edge

New

The next generation of roof racks

Constantly aiming at staying one step ahead, and working closely together with the car industry, Thule introduces a new generation of roof rack systems: Thule Edge and Thule Evo. The low-profile Thule Edge system offers a sleek, integrated design, while the Thule Evo system maximizes the loading area and comes with a variety of load bar options. No matter what system you choose for your vehicle, you can rest assured that you will get the safest, strongest and most stylish roof racks around. 100% made in Sweden and tested to the limits and beyond. With a Thule roof rack, you get quality all the way.

Roof rack solutions for all your needs

Thule offers two different product lines, Thule Evo and Thule Edge. Thule Evo is a roof rack system with easy installation of accessories and the largest possible loading area. Thule Evo offers you flexibility and lets you choose the load bar type that fits your needs. Thule Edge is a low-profile roof rack system for easy installation of accessories, and an integrated design. Thule Edge gives you you a low fit with a stylish look and a roof rack that looks great even when not in use.

High-quality roof racks with great features

Thule Next Generation Roof Racks share many essential features over the two product lines.

Load capacity – 75 kg load capacity on all roof racks.

Quick Installation – both when assembling the roof rack on your car and when installing accessories or other carriers (bike, winter/water) on the rack.

Safe – tested to the limit and beyond. All roof racks come with a Torque key that assures the user of a correct installation every time.

> Sport & Cargo Carriers

Roof Racks

Thule Evo Clamp

New

Safely secured with the ergonomic torque limiter key, providing tactile feedback to the user once correct assembly force is applied

New kit bracket made of high-strength steel, reducing the thickness from 2,0mm to 1,5 mm

Easy assembled, thanks to the click-in part of the kit

Unique design with Thule's patented clamping technology for an single attachment point, securing both foot to roof and system to car

Ease of use thanks to front facing adjustment for positioning foot to load bar

> Sport & Cargo Carriers Roof Racks

Thule Evo Raised Rail

Safely secured with the ergonomic torque limiter key, providing tactile feedback to the user once correct assembly force is applied

Improved compact design that enables a 98% fit of all raised railing cars

Optimal fit thanks to the protective rubber sealing

Quick installation thanks to the grip-friendly screw for manual pre-adjustment of the foot

> Sport & Cargo Carriers

Roof Racks

Thule Wingbar Evo

QuickAccess interface for a smooth installation

The bar has an upper T-track with QuickAccess interface, which allows for smooth installation and removal of accessories in no time.

SwingBlade end caps open easily

The SwingBlade end cap pivots open to allow easy access to the T-track, making it easier to change accessories.

Designed for great aerodynamics

Minimal noise and lower fuel consumption thanks to the aerodynamic design. TrailEdge design reduces aerodynamic drag by allowing clean air separation from the bar.

WindDiff user technology disturbs airflow to reduce noise and drag for improved fuel economy

Upper T-track with QuickAccess interface allows smooth installation and removal of accessories

SmartSlide, slidable length scale doubles as an under-bar aerodynamic cover, providing quick, no-hassle rack installation

SwingBlade end cap pivots open to allow easy access to the T-track for easy installation of accessories

TrailEdge design reduces aerodynamic drag by allowing clean air separation from bar

› Sport & Cargo Carriers

Roof Racks

Thule Evo & Thule Edge

New

As of Monday 24th of September we launched a new structure on thule.com for the Roof Rack category, where you can find three sub-categories shown:

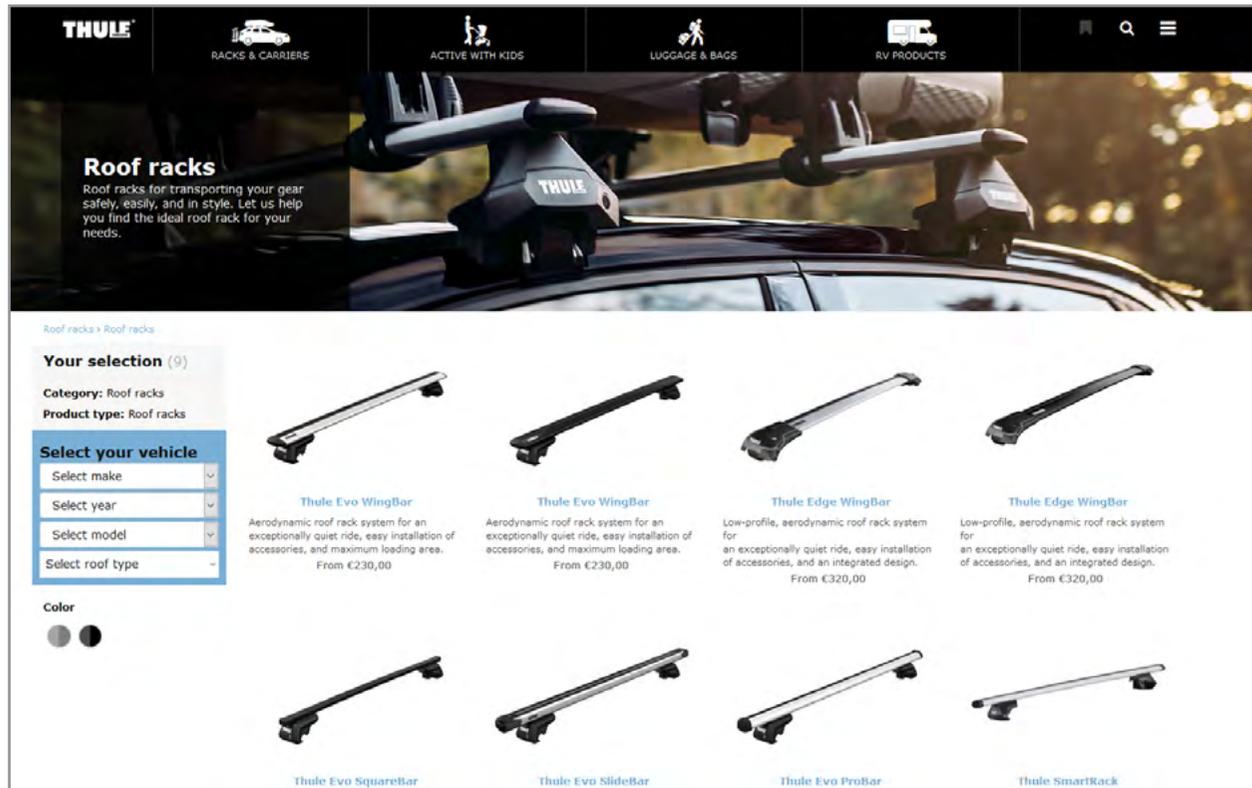

- Roof Racks
- Roof Rack components & accessoires
- Professional Accessories

In the Roof Racks category we will present all rack solutions as complete racks, i.e. the way the end consumer would buy the product, and all products are from now on grouped in the two new product lines- **Thule Evo** and **Thule Edge**.

Thule Evo will show all rack solutions for a maximized loading area, while Thule Edge shows all rack solutions for a low integrated design.

Noticeable on this new structure is that we are also merging existing products into the same structure, so for example in the Thule Evo product line, we are presenting all rack solutions with protruding bar option; Thule SquareBar, Thule WingBar, Thule ProBar and Thule SlideBar. (i.e. the world Evo does not necessarily mean new product)

Under Roof Rack components & Accessories all the different rack components, such as foot packs, load bars, Thule One key system and loading straps will show.

Thule Vector

New

Designed with performance styling

Stylish, sporty and sophisticated, the Thule Vector sets a new standard for premium cargo boxes, with a design that adds a distinctive look to your car. Destined for good times and great adventures, it offers an exciting fusion of performance styling and premium features. Thule Vector brings a powerful expression to any car, and a sense of style to your active life. Engineered to perfection with a smooth and seamless connection between the lid and the base and a characteristic forward-leaning front, Thule Vector stands out in the crowd. Thule Vector is a cargo box like no other.

Premium features for a new level of user experience

Thule Vector provides an unsurpassed user experience, with several smart functions that let you focus on enjoying your active life. Synchronized lid lifters make for a smooth, effortless dual-sided access to your gear, and the white interior on the lid combined with an integrated LED-light maximizes visibility when you need it the most. The felt-lined base protects your gear and adds a luxurious touch. With unsurpassed attention to detail, the Thule Vector is designed both to look great on your car and to give you a world class user experience.

Tested to the limit and beyond

Like all Thule cargo boxes, Thule Vector has been tested extensively both in real life and in the Thule Test Center, a state-of-the-art facility for testing cargo boxes to the extreme. All so that you can be confident Thule Vector will carry your load safely and securely wherever your travels lead.

Water Sport Racks

Thule Hull-a-Port Aero New

Head for water's edge

The new Thule Hull-a-Port Aero is the perfect combination of both function and form. Sharing the core functionality of other Thule carriers, this new model is easy to use, quick to install and protective of both the kayak and the vehicle during transit. These features, combined with its sleek design, make this carrier the most streamlined kayak carrier Thule has to offer.

Intended to match the style and design of vehicles today, the aerodynamic Thule Hull-a-Port Aero seamlessly fits onto Thule WingBar and Thule WingBar Evo roof racks by safely and securely integrating into their T-tracks with tool-free mounting hardware. This new design is quick and easy to mount and allows the carrier to sit flush to the roof rack for a cohesive appearance.

The Thule Hull-a-Port Aero will help you get to wherever your water adventure takes you. It is safe, stylish and easy to use, allowing you to put your energy where you need it – out on the water.

Thule Hull-a-Port XT

New

Focus on the destination, not getting there

The Thule Hull-a-Port XT has been designed with versatility in mind. This kayak carrier offers the flexibility of different carrying configurations, quickly folds flat when not in use and easily mounts to any vehicle roof rack. Able to adapt to your needs, the innovative Thule Hull-a-Port XT allows you to carry one kayak or two, easily adjusting to hold them safely and securely. And, when you want to load your kayaks onto a different vehicle, the Thule Hull-a-Port XT gives you the flexibility to quickly and easily switch with its tool-free universal mounting hardware.

Whether you are ready to get out on the water for a short solo trip or sharing in the adventure with others, getting there should be this simple.

Thule T-Track adapters New

The t-track screws that are included in Thule UpRide and Thule SnowPack (that have been produced up to now) are not compatible with the new Thule WingBar Evo as they are too short.

To make that combination work the consumer would need longer-track screw which we have set up as spare parts:

T-Track Screw	Sparepart number	Fits Thule Products
T-Track Screw 65mm	1500054126	Thule Upride 599000 & 599001
T-Track Screw 29mm	1500054127	Thule Snowpack 7322, 7324, 7326
T-Track Screw 58mm	1500054128	Thule Snowpack 7322, 7324, 7326 + Thule Squarebar Adapter

To know which version of the Thule UpRide and Thule SnowPack that are compatible with the Thule WingBar Evo we will put a sticker on the packaging (see below). If the packaging has a sticker, you won't need any spare part. If there is no sticker on the packaging, you need a spare part from the table above.

**Compatible with
Thule WingBar Evo**

Thule One-Key System New

To support our customers we have introduced a **Thule One-Key System refill pack** including 5 pieces of every new key variant (in total 50 x 5 = 250 keys; N201-250) for the new and improved Thule One Key System. The refill packs target the customers wanting to have all available new key combinations and with the refill pack the customer will get 5 pcs of each key. The pricing and discount structure for the refill pack follows the same structure as we have in place for regular Thule spare parts.

Ski & Snowboard bags

Thule Upslope Snowsports Backpack.

New

Access gear without slowing down

Easily access your most used gear while the pack stays on your back. Versatile helmet carry options, dedicated mountain tool storage and a series of adjustable daisy chain loops allow you to reach equipment quickly, so that the only reason you'll need to stop is to take in the view.

It's all in the details

From base to summit and back again, you can rely on Thule's expertly designed details to ease the journey. Carry your skis or snowboard using an adjustable loop that fits a wide range of ski and board widths. Oversized pockets wrap around and hug the body for an incredibly comfortable and stable ride. An insulated hydration sleeve helps prevent your hose from freezing and a compression system keeps your gear close to your body for the downhill.

Ultimate safety and flexibility

Anchored in safety, the Thule Upslope Collection comes complete with dedicated snow safety tool storage. The 25L and 35L backpacks are also airbag ready and can be used with or without the Mammut Removable Airbag 3.0® System for complete flexibility.

Store a mountain tool in the stowable ice axe loop that can tuck away to prevent snagging

Active with Kids

Child Bike Seats

Thule Yepp Nexxt seats

Based on consumer feedback in our main child bike seat markets we have chosen to change the touch point colors on all our Thule Yepp Nexxt child bike seats from blue to grey. The updated seats were presented at the Kind + Jugend trade show in September 2018 and the new color was highly appreciated. As of now all new produced Thule Yepp Nexxt child bike seats will have the grey touchpoints. As the change from blue to grey touch points will be a running change, customers can receive products with either grey or blue touchpoints for the next few months and due to this reason we will not update the product images on Thule.com immediately, but wait until the products have reached the consumers.
